EXECUTIVE SUMMARY

StorMagic is solving the world's edge data problems. We help organizations of all types and sizes store, protect, and manage their data at and from the edge. Our products ensure data is always protected and available, no matter the type or location, to provide value anytime, anywhere.

Our products operate from the harshest edge environments to pristine datacenters, from small businesses to Fortune 500 companies. They are simple, flexible, reliable, and cost-effective, without sacrificing enterprise-class features, for organizations with one to thousands of sites.

OUR PARTNER ECOSYSTEM

- Strategic alliance partners include HPE, Lenovo, and Schneider Electric.
- Technology partners include VMware, Commvault, Zerto, Acronis, and Microsoft.

OUR HISTORY

2006: StorMagic was founded with a goal to simplify IT for customers.

2007: Introduced its first product in 2007, the SM Series, a software-based iSCSI SAN.

2009: SvSAN was introduced in 2009 as a virtual SAN software-defined storage solution designed for edge computing environments.

2011: StorMagic secured two patents for "Method and system for data replication".

2017: StorMagic secured a patent for "Systems and methods for caching data".

2018: SvSAN 6.2 was released, and with it a new FIPS 140-2 compliant data encryption feature.

2020: Strategic partner HPE began selling SvSAN as a replacement for its StoreVirtual platform, which was discontinued in 2019.

2020: Introduced SvKMS, an enterprise-grade encryption key management solution that can be integrated in the datacenter, edge or cloud.

2023: Launched Edge Control, a Software-as-a-Service (SaaS) centralized monitoring and management tool that allows every node and cluster to be accessed anywhere, on any device.

2024: StorMagic SvHCI is launched, a full-stack hyperconverged infrastructure (HCI) software solution specifically for the edge and SMBs.

STORMAGIC SvHCI

The most cost-effective HCI solution for the edge and SMBs.

StorMagic SvHCI was launched in 2024 and is a full-stack hyperconverged infrastructure (HCI) software solution purpose-built for the enterprise edge, remote and branch offices (ROBOs), and small and medium businesses (SMBs). SvHCI combines the virtualized storage capabilities of SvSAN with a StorMagic hypervisor, virtualized networking, and management components.

What makes SvHCI different?

- The alternative to overengineered, overprovisioned, overpriced solutions
- Proven technology, enterprise-class reliability, and back-up protection
- Save up to 62% over VMware by choosing SvHCI instead

LEARN MORE ABOUT SvHCI

STORMAGIC SvSAN

Data at and from the edge is essential. SvSAN keeps it available.

Launched in 2009, SvSAN is the virtual SAN that makes the complex world of virtualized storage simple. Perfect for edge computing environments, the technology is based on software-defined storage that eliminates the need for physical SANs. SvSAN is designed to be very simple to install and manage whether deployed as part of a hyperconverged solution or as a storage-only target for any server environment.

What makes SvSAN different?

- Built specifically for edge, SME and small datacenter
- Lightweight, low-cost architecture simplifies deployments
- One tiny witness capable of managing 1,000 clusters

LEARN MORE ABOUT SvSAN

STORMAGIC SvKMS

Data at and from the edge is valuable. SvKMS keeps it protected.

Enterprises deserve a one-stop approach to key management. Launched in 2020, SvKMS provides a single platform that manages all your encryption keys, anywhere. Customers get an enterprise key manager for any encryption workflow, whether at the edge, datacenter, cloud or even multi-cloud. SvKMS has enterprise-grade features delivered in a simple to use interface - all at a surprisingly low cost.

What makes SvKMS different?

- Automate and integrate with any workflow
- Lowest price for modern key management
- Easy to use and configure
- Deploy, generate, store and provision keys anywhere

INDUSTRY-LEADING ACCOLADES

Below are several of our recent award recognitions. Visit the StorMagic website for all of **our latest awards and recognitions.**

2024 Storage Insider Awards - Nominated for a Readers' Choice Award for Data Management & SDS

2023 Network Computing Awards - Finalists in 7 categories

2024 Storage Awards (Storries XXI) Winner - Data Management & Monitoring Vendor of the Year

2022 BigDATAWire Editors' Choice Award - Best Data Storage Solution

2024 CRN Channel Chiefs - Brian Grainger, CRO (awarded for 4 consecutive years)

A Strong Performer in the 2022 Gartner Peer Insights Voice of the Customer Hyperconverged Infrastructure Software

DCIG Top 5 VMware vSphere Alternatives for SMB/Edge

2022 CRN Storage 100 - StorMagic named a Top 20 Coolest Vendor in Data Management

2024 Payroll Giving Award - For generating sustainable income source for UK charities
