

STORMAGIC SvKMS

AN INTRODUCTION

ABOUT SvKMS

Data at and from the edge is valuable. StorMagic SvKMS keeps it protected. SvKMS provides encryption key management that adapts to any environment, whether that's at the edge, datacenter, cloud or even multi-cloud, and it can handle any encryption workflow.

BENEFITS OF SvKMS

Manages all your encryption keys, anywhere, for any encryption workflow

Unifies encryption key management processes in a centralized virtual appliance

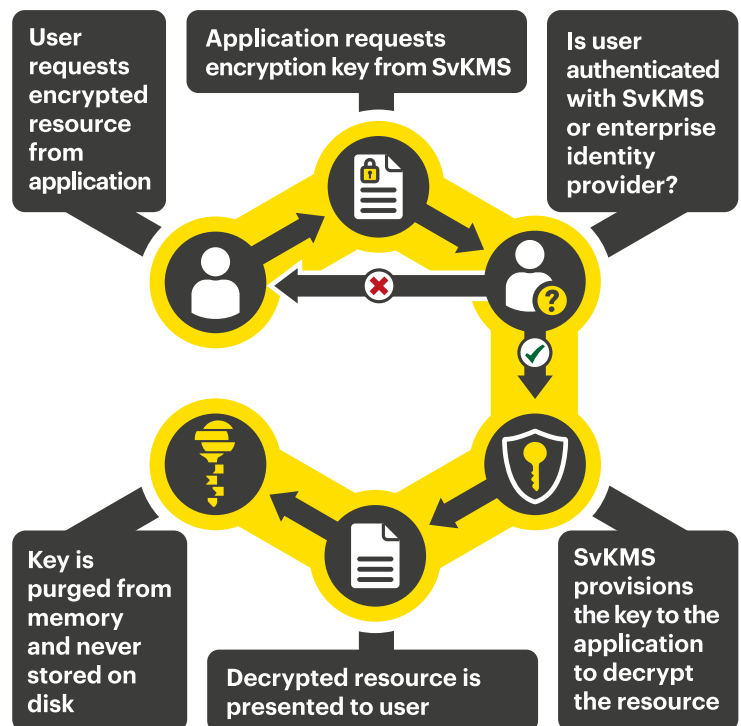

Offers enterprise-grade features at the best price for modern key management

Runs in any cloud or hypervisor that you choose

Sets up quickly and easily – deploys in minutes with a simple-to-use interface

SECURE KEY MANAGEMENT LIFECYCLE

"The SvKMS key management solution provides the encryption we require to keep our customers' critical data secure."

Jeff Moore, Senior Manager Enterprise Server,
Giant Eagle, Inc.

INTEGRATE ANY ENCRYPTION WORKLOAD
