PeerStory: StorMagic SvSAN

This PeerStory is a collection of quotes from a real user sharing their experience using StorMagic SvSAN on PeerSpot.

Kimmo K.
Senior Solution Consultant at a Comms Service Provider with 5,001-10,000 Employees

★★★★⯪

Use Case

We use StorMagic SvSAN primarily to provide **a cost-effective hyperconverged system for my clients** using VMware.

This reliable solution, designed for small and medium-sized enterprises, allows them to leverage various storage types and brands within a cluster without limitations.

Valuable Features

The witness feature is great because it can handle up to 1,000 clusters.

> "StorMagic SvSAN is a highly reliable option for customers with enterprise needs and tight budgets. It offers valuable features and excellent technical support."

> "We implement StorMagic SvSAN for our clients because it is a cost-effective solution that meets all their needs."

Results

StorMagic SvSAN has improved my organization by offering a modern Graphical User Interface, ensuring reliability and minimizing maintenance efforts. The main strength lies in simplifying customer processes by reducing the need for additional storage systems, thus **saving costs in server hardware procurement and maintenance.**

ROI

StorMagic SvSAN is a cost-effective solution that eliminates the need for customers to purchase additional storage systems. Instead, they can utilize simple server hardware with sufficient disk capacity and high-performance disks, **reducing overall expenses.**
