

DATA ENCRYPTION

2018

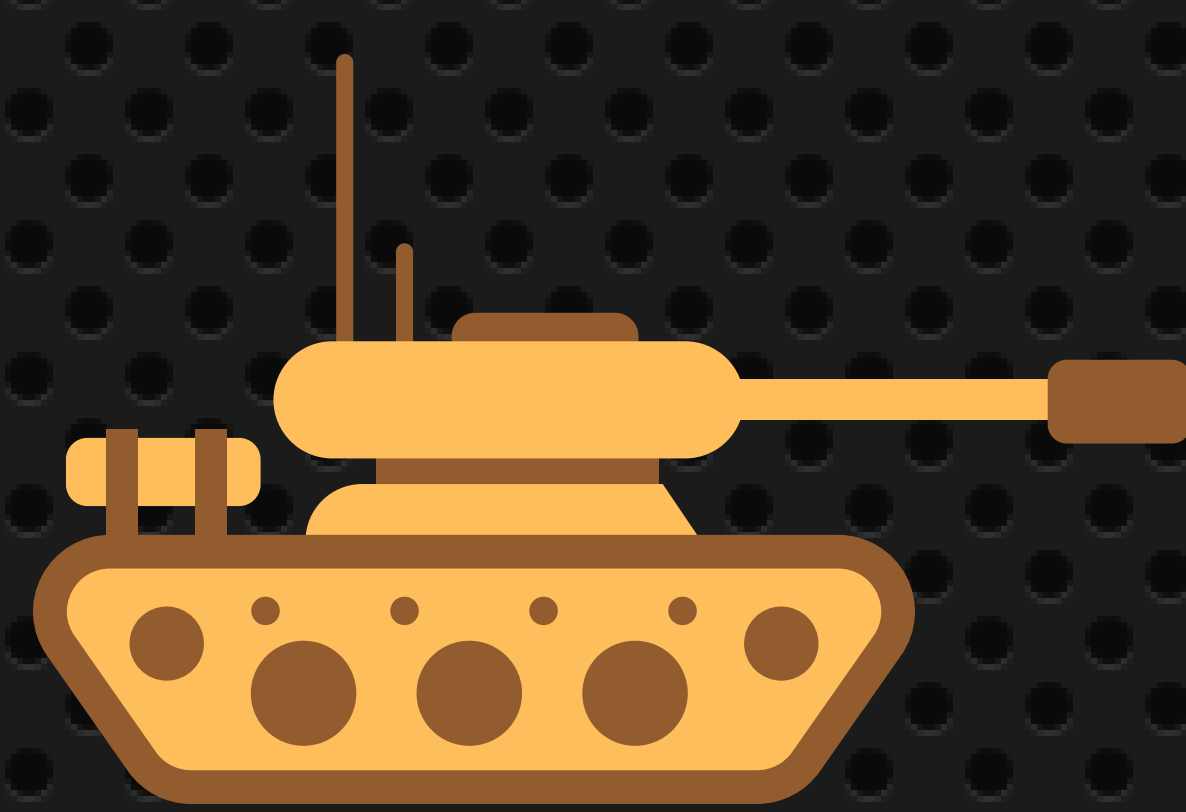

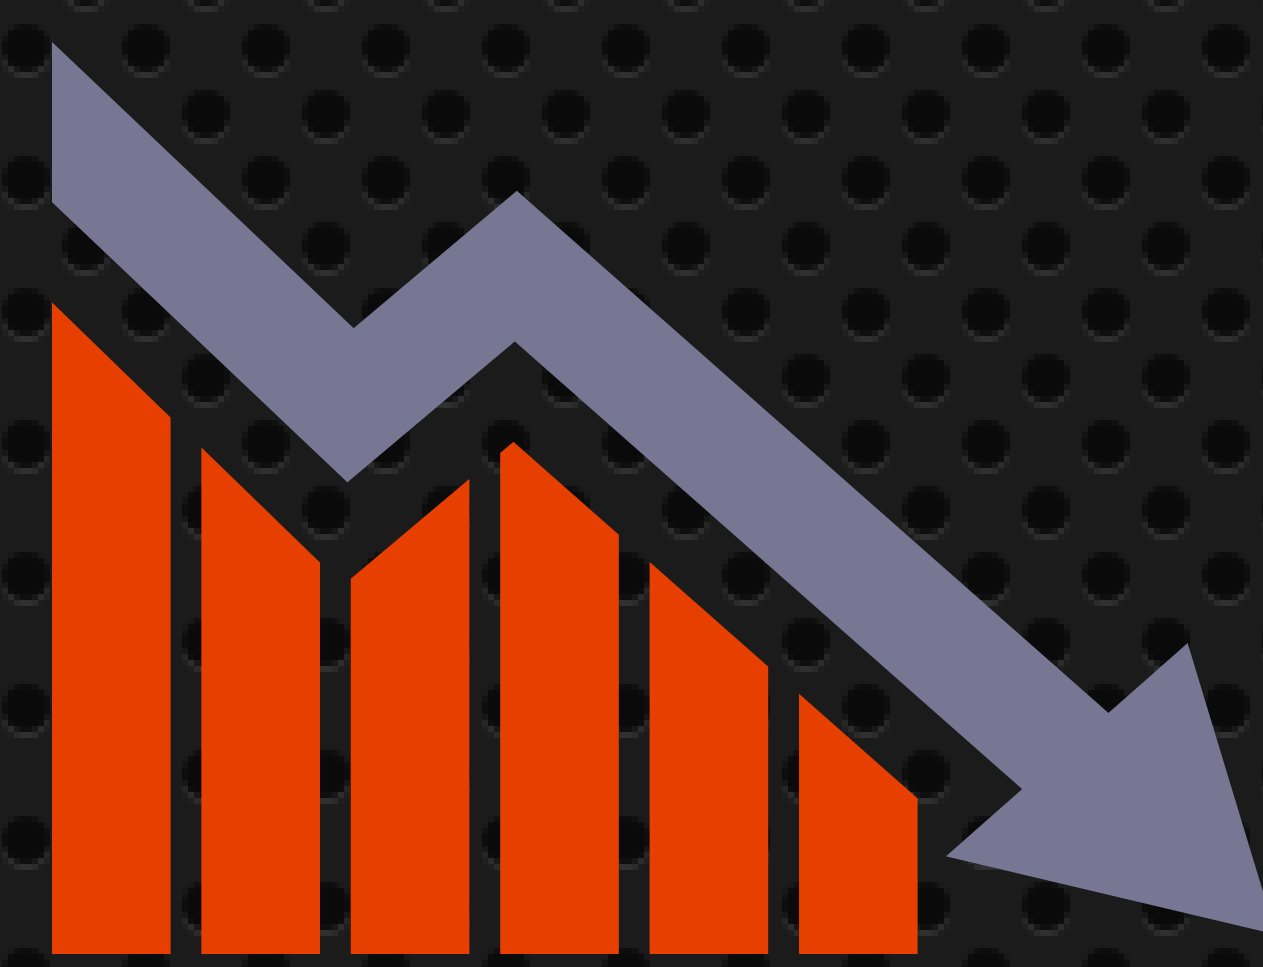

2020

IN THE NEXT TWO YEARS, THE PERCENTAGE OF ENTERPRISES USING ENCRYPTION IS SET TO MORE THAN DOUBLE (GARTNER, 2018)

ARE YOU GOING TO JOIN THEM?

SvSAN is slashing the cost of data encryption

85% LESS EXPENSIVE THAN COMPETITOR SOLUTIONS

MILITARY-GRADE

SvSAN uses a military-grade FIPS compliant encryption algorithm (OpenSSL XTS-AES-256).

Simple

Secure data without the hassle

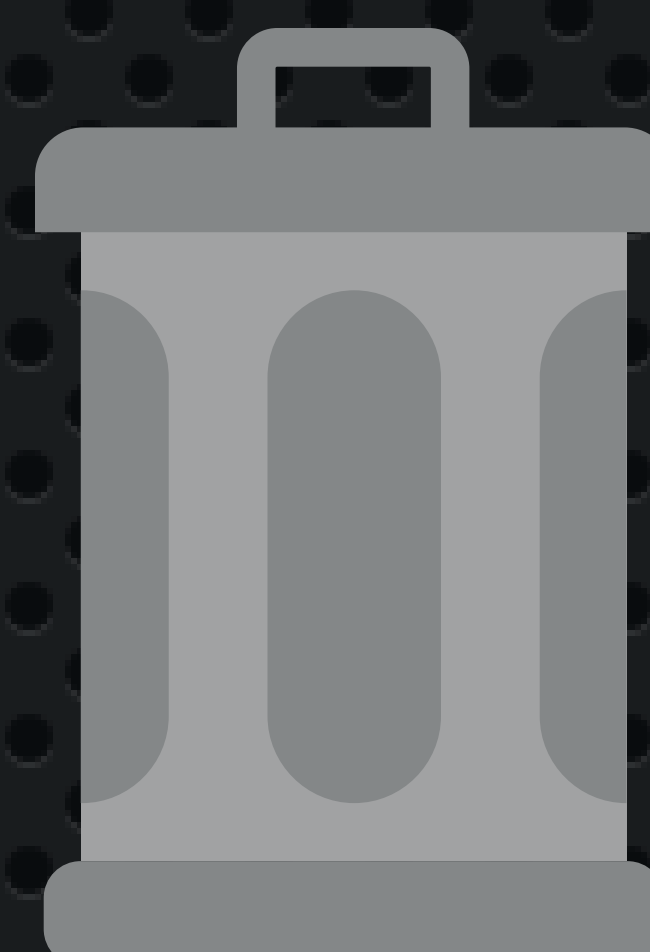

100% SOFTWARE

StorMagic SvSAN with Data Encryption is a software-only solution. Just your servers, hypervisor of choice and that's it.

NO DESTRUCTION

Data destruction such as disk scrubbing or degaussing is not required on failed drives before discarding. That's one less thing to worry about.

Meets the requirements of:

- GDPR
- HIPAA
- PCI DSS
- SOX

Ticks all the boxes

Meeting data protection regulations is no problem for SvSAN. The checklist says it all.

Cost Effective

Significantly less than competitors

ELIMINATES THE NEED FOR OS OR HYPERVISOR-LEVEL ENCRYPTION

Data is encrypted at the storage level so you don't need that expensive stuff from the other guys.

NO NEED FOR SPECIALIST HARDWARE

No expensive self-encrypting disk drives or RAID cards are required. Why buy it if you don't need it?

Flexible

Use any Key Management Server

Use any KMP compliant KMS

Have the flexibility to use whichever Key Management Server you would like, as long as it's KMP compliant.

Works with any server or storage type

No need for new hardware - use any x86 server and any combination of storage types, whether HDD or SSD.
